Re: Sprint Nextel's Status Report on 800 MHz Band Reconfiguration
WT Docket 02-55

Dear Mr. Furth:

Sprint Nextel Corporation ("Sprint Nextel") hereby files the attached report regarding the 800 MHz band reconfiguration progress with the Federal Communications Commission ("Commission") and the 800 MHz Transition Administrator, LLC ("TA"). In its September 12, 2007 *Third Memorandum Opinion and Order* in the above-captioned proceeding, the Commission required Sprint Nextel to submit monthly reports regarding its clearing of Channels 1-120 (Phase I) and the NPSPAC channel block (Phase II). See *Improving Public Safety Communications in the 800 MHz Band*, Third Memorandum Opinion and Order, WT Docket No. 02-55, at ¶¶ 29-30 (rel. Sep. 12, 2007) ("*Third Memorandum Opinion and Order*").¹ As demonstrated in this report, the substantial progress in 800 MHz band reconfiguration noted in Sprint Nextel's previous monthly reports has continued.

In Phase I, Sprint Nextel has completed the retuning of all non-Sprint Nextel, non-SouthernLINC Channel 1-120 incumbent licensees in forty-three NPSPAC regions, with the completion last month of the South Carolina NPSPAC Region. In the thirteen remaining NPSPAC regions or U.S. Territories in which Channel 1-120 clearing has not been fully completed, ten have three or fewer 1-120 Channel licensees remaining to be retuned, including six NPSPAC Regions with only one 1-120 incumbent left to retune. ***Overall, ninety-six percent of the nearly 1200 Channel 1-120 licensees that must be retuned during Phase I of 800 MHz band reconfiguration have been retuned.*** See Figure 1.²

¹ By continuing to file these reports in compliance with this reporting requirement, Sprint Nextel does not waive its right to challenge those requirements or any other portion of the *Third Memorandum Opinion and Order*.

² As Sprint Nextel has noted in previous reports, some Phase I incumbents have elected to retune their 1-120 facilities as part of a consolidated retune with their Phase II obligations. For example, Sprint Nextel believes that most of the remaining five licensees left to retune in the Washington, DC/Baltimore NPSPAC Region have elected to consolidate their retunes in this fashion. As these elections are verified, Sprint Nextel will remove them from Figure 1.

By any reportable measure Phase II of 800 MHz band reconfiguration continues to show strong progress. For example, nearly 150 public safety licensees have completed retuning to their new channel assignments and more than 525 of the 900 non-border area public safety licensees who must be retuned have signed Frequency Reconfiguration Agreements ("FRAs") and are at various stages of implementation. Of the approximately 400 licensees who have not yet signed FRAs, sixty percent of those licensees continue to plan their retunes pursuant to Planning Funding Agreements ("PFAs") and are working with their vendors and consultants to provide Sprint Nextel the cost estimates necessary to negotiate FRAs. The remaining licensees are already conducting accelerated negotiations and mediations to reach FRAs so that they can move on to retuning their systems.

As Sprint Nextel predicted last year, the participation of public safety licensees, vendors, Sprint Nextel and the TA at Regional Planning meetings has proven to be invaluable in facilitating interoperability planning and implementation of both individual and regional retunes. As listed in Figure 4, 200 Phase II NPSPAC licensees have established with Sprint Nextel a date certain for starting and completing their physical retuning work, an increase of 20% since last month's report.

Furthermore, based on *ad hoc* requests to schedule and perform retunes, as well as those discussed through the regional planning process, Sprint Nextel has been notified of and is prepared to timely provide cleared replacement channels for over 570 public safety agencies. The dates for these retunes are responsive to the requirements of each public safety licensee. Some are scheduled for completion in 2008; others in 2009 and beyond. In every case, Sprint Nextel is making replacement 1-120 channels available to public safety licensees ready to initiate their infrastructure retunes within sixty days notice, as provided for in the Commission's *Third Memorandum Opinion and Order*. Thus, as the above metrics demonstrate, having replacement channels available for public safety is not and will not be a gating factor in scheduling public safety retunes. We are continuing to schedule channel replacements for additional incumbents as they participate in regional planning sessions or otherwise advise us of their infrastructure retuning schedules.

Starting on March 17, 2008, public safety licensees across all NPSPAC regions were required to file requests for extensions of time or waiver of the Commission's June 26, 2008 reconfiguration completion deadline if they did not expect to complete their retunes by that date. Based on the filings submitted to date, over 500 public safety licensees will not complete their retunes by June 2008. Well over half of them have not signed FRAs, and many of those licensees are not ready to even begin to negotiate their FRAs as they have not completed their planning activities. The remaining public safety waiver applicants have signed agreements to retune their facilities but have requested extensions past the June 2008 deadline to complete band reconfiguration. Thus, for reasons outside Sprint Nextel's control, more than 500 public safety Phase II retunes will not be completed by June 26, 2008.

David Furth, Associate Bureau Chief

May 1, 2008

Page 3

Sprint Nextel appreciates the continuing opportunity to update the Commission on the substantial progress being made in 800 MHz band reconfiguration. We are available to discuss this Report at the Bureau's convenience. Sprint Nextel remains committed to completing 800 MHz band reconfiguration and submits that by any objective measure substantial progress continues to be achieved.

Should you have any further questions in this matter, please contact the undersigned.

Respectfully submitted
